John T. MacDonald
President
Environmental Manufacturing Solutions, LLC
7705 Progress Circle
Melbourne, FL 32904

Dear Mr. MacDonald:

The U.S. Environmental Protection Agency applauds Environmental Manufacturing Solutions, LLC ("EMS") for your leadership in developing an environmentally oriented set of marine cleaners. EPA's Design for the Environment ("DfE") program seeks to promote the use of products with improved environmental and human health characteristics. The products in our partnership from the Triton Marine line—Boat Wash, Hull Cleaner, Black Streak Remover, Diesel Soot Remover, Non-Skid Deck Cleaner, A/C System Flush, and Engine Flush – fully achieve that objective in the marine cleaning sector.

The key purpose of the DfE-EMS partnership is to recognize and encourage the environmentally preferable chemistry of the partnership products. DfE is very enthusiastic about your successful formulation of these products and about our partnership. By eliminating hazardous solvents, environmentally persistent surfactants, and other harmful ingredients, you have demonstrated active environmental stewardship and dedication to continuous improvement.

Consumers who use your recognized products will be participants in this important national effort to protect the environment and safeguard human health. We commend EMS for your commitment to improving the environmental profile and performance of your products—and for leading change in the cleaning industry. DfE looks forward to building this partnership and wishes you much success with the partnership products.

Sincerely,

A handwritten signature in black ink, appearing to read "Clive Davies".

Clive Davies, Chief
Design for the Environment
